Raising Environmental Awareness in Estonian-Russian Border Area

GreenMind ER101

Summary of the Project

“GreenMind” project partners will develop and promote initiatives, methods and concept on environmental awareness of inhabitants from Peipsi/Chudskoye Lake area to improve their eco-behaviour.

Project activities will focus on creation of environmentally-oriented, energy-efficient and attractive living conditions and recreation in Estonia-Russia border regions.

To teach nature friendly patterns of behavior in educational institutions project will capitalize fragmented environmental education and awareness initiatives, programs and materials and produce a series of comprehensive and practical methodological materials and interactive educational toolkits for wider use. Also a draft concept of environmental education will be developed for Pskov Region and submitted to the Committee on Education.
