T01 Business and SME development

Promoting marketing of local products and services

“FarmerCraft” ER45

SUMMARY OF THE PROJECT

The overall objective of the project is increasing SME development and entrepreneurship by fostering cross-border business contacts and the development of services and products.

The expected change brought along consists of improving the skills and knowledge of SMEs active in handicraft and small-scale agricultural production in selected sectors.

The following equipment will be procured and installed for projects' beneficiaries:

In Estonia

Kohtla-Järve - 10 modular houses and 1 stage with new electricity network connection for the planned marketplace.

Foundation Edise Castle - fully equipped glass-, carpentry- and metal workshops with aspiration systems.

In Russia

Slantsy - 10 modular houses installed on improved market place.

Kingisepp - 10 modular houses and fully equipped municipal craft pottery.

Focus will be also on business management, marketing skills and network building and sustaining through organizing joint relevant master-classes on both sides of the border;
